Interactive comment on “Sediment dynamics on a steep, megatidal, mixed sand-gravel-cobble beach” by A. E. Hay et al.

G. Coco (Editor)

giovanni.coco@unican.es

Received and published: 28 May 2014

This is an interesting and relevant manuscript, and I am happy to accept it for publication in ESurf. The authors should address the comments by reviewer 1 but I do not expect to send the manuscript for re-review. Within this context, I need to point out that reviewer 2 has contacted me privately indicating that the present version of the manuscript could be accepted for publications. The comments of both reviewers over a previous version of the manuscript should definitely be acknowledged.

I thank the authors for submitting their interesting work to ESurf, best regards giovanni coco
