Interactive comment on “Analysis of glacial and periglacial processes using structure from motion” by L. Piermattei et al.

S. Conway (Editor)

susan.conway@open.ac.uk

Received and published: 11 December 2015

Your second review is now in - could you respond to this and either rebut changes suggested and/or make modifications to the manuscript and submit a revised version for consideration. Please take into careful consideration the recommended changes by the second reviewer (RC508), particularly regarding the brevity and focus of the manuscript.
