Dear Mr. Masselink,

We thank you for the proposed four references to be introduced in the paper. We agree that these make sense and are right in the purpose of the manuscript. They were all added, respectively in the introduction: Strahler (1957) and Shreve (1974); and in the state of the art section: Marra et al., (2014) and Masselink et al., 2017.

Best regards,

Etienne Cossart and Mathieu Fressard
