

Interactive comment on “Reconstruction of North American drainage basins and river discharge since the Last Glacial Maximum” by A. D. Wickert

J. K. Hillier (Editor)

j.hillier@lboro.ac.uk

Received and published: 4 April 2016

Dear Dr Wickert,

Your paper now has two thorough reviews. Both are encouraging. The least enthusiastic describes the study as 'worthwhile', and offers constructive criticism with substantial technical advice. As such, I strongly encourage you to submit a revised version of your paper, as usual fully taking into account and responding to the reviewers' comments.

All the best

John
