Dear editor, dear reviewers,

We have now completed a revision of our manuscript "U-Th and  $^{10}\text{Be}$  constraints on sediment recycling in proglacial settings, Lago Buenos Aires, Patagonia". We would like to acknowledge the interesting and exhaustive reviews by the two reviewers, that helped us improve the manuscript. We did our best to address all comments and suggestions.

We address our answers to more specific comments in the attached document. The

C1

manuscript has been improved following these remarks. We hope that both will help clarifying various addressed points.

Best regards Antoine Cogez
