Received and published: 23 May 2018

We thank again Dave Millledge and an Anonymous Referee for their constructive and thoughtful comments.

Before the end of the discussion period we propose here a number of thoughts and clarification concerning the main points of interrogations of both referees. Cf attached PDF.

For clarity, redundant comments and technical /typos comments have been removed.

In some case these comments remain tentative and may evolve slightly in the final

answer to come. Thus we would significantly appreciate any comments from the referees or the AE on these preliminary answers before we work on a final revision of the manuscript.

Sincerely,

Odin Marc on behalf of all co-authors,

Please also note the supplement to this comment:
