

Interactive comment on “Scaling and similarity of a stream-power incision and linear diffusion landscape evolution model” by Nikos Theodoratos et al.

Nikos Theodoratos et al.

theodoratos@usys.ethz.ch

Received and published: 20 July 2018

We are grateful to referee Greg Tucker and the anonymous referee for reviewing our manuscript and offering their feedback. We reply to the referees' comments in the uploaded supplement (pdf file). This supplement also includes the revised manuscript with marked-up changes. To reduce the size of the pdf file, we did not include the figures of the revised manuscript, because we did not make any changes to them.

Sincerely,

Nikos Theodoratos, Hansjörg Seybold, and James Kirchner
