

Interactive comment on “Potentials and pitfalls of permafrost active layer monitoring using the HVSR method: A case study in Svalbard” by Andreas Köhler and Christian Weidle

Andreas Köhler and Christian Weidle

andreas.kohler@geo.uio.no

Received and published: 8 August 2018

We very much appreciate the very detailed and thorough review provided by Lukas Preiswerk. We especially value the feedback concerning the structure of the paper. A response to all points raised by the reviewer can be found attached to this comment along with a revised, preliminary version of the manuscript highlighting all modifications.

Any further feedback is appreciated.
