

Answers to the editor

Dear editor,

Thank you for your recommendations and suggestions.

The changes you requested for the final version have been made and they are highlighted in green in the corrected version of the manuscript.

We did a few additional changes:

- Adding indication about orientation on figure 18 and 19.
- Some missing numbers have been added to Table 1.

We provide figure in pdf or JPG and the table both in pdf and excel. I was not able to insert the table 1 in text format in the manuscript, it is an image now. But I provide 3 versions in word (A3) , Excel and PDF. I hope it works.

We hope that is all you requested.

Sincerely yours

Michel Jaboyedoff
