We thank Dr Ashton for his constructive comments on the manuscript, and we agree that these suggested amendments will ultimately improve the final version.

In a revision, we will incorporate the various line edits Dr Ashton has flagged, and will elaborate on the sections he suggests are under-supported (or would otherwise benefit from further discussion/explanation).

We will also include a summary table (for easier reference) of the key time scales shown in Figs. 2–4, and revise the figures to improve their clarity.
