Received and published: 14 November 2018

We are grateful to R#2 for considered and constructive comments.

A number of these notes echo (or are echoed by) comments posted here by other readers, and we will incorporate the various recommendations into a forthcoming revision. They are all elements or aspects that we can address, either with additional analysis or by more fully describing evidence established by previous work on the Narrabeen system.

Interactive comment on Earth Surf. Dynam. Discuss., <https://doi.org/10.5194/esurf-2018-72>, 2018.
