

Interactive comment on “Erosional response of granular material in landscape models” by Riccardo Reitano et al.

Riccardo Reitano et al.

r.reitano@gmail.com

Received and published: 15 September 2020

We would like to thank Dr. Michele Cooke for the corrections and the useful comments. They have been very helpful in improving and making our work clearer and more readable. We include hereafter (as supplement file), point by point, the reply (in dark red italic text) to all the Referee comments. We will also upload the revised version of our manuscript. We hope the manuscript is now ready for the publication in Earth Surface Dynamics.

Please also note the supplement to this comment:
