Interactive comment on "Impacts of grazing on vegetation dynamics in a sediment transport complex model" *by* Phillipe Gauvin-Bourdon et al.

Andreas Baas (Editor)

andreas.baas@kcl.ac.uk

Dear authors,

Thank you for posting your indicative responses to the comments and questions raised by the two reviewers.

Please proceed with submitting your revised manuscript, and please also post a tracked-changes version or a version where you highlight sections and text that have been edited, so that the readers can track the responses.

Thank you, Andreas Baas Editor
