Response to comment esurf-2020-59-SC1

We made several responses to the major points of this comment in our author comments esurf-2020-59-AC2, esurf-2020-59-AC5, esurf-2020-59-AC6 In this comment, we will assure completeness by making a point by point rebuttal, but we provide references to the earlier responses.

We will put this response into a supplement, primarily so that we can more easily format the response for clarity.
