This is a justification for eliminating a subscript in an in-text equation (page 9, 2nd paragraph). The equation describes the parameter Chi, we request to remove the subscript 1 of the variable *A*, such that *A* will be written instead of A_1. The The reason is that the equation aims to be a general description of the parameter Chi, and the subscript 1 suggest that it applies to a specific channel of the two channels across the windgap, which may confuse the readers.
