**Editor decision: Publish subject to technical corrections**

**Comments to the author:**

Dear Harrison Gray and colleagues,

I am happy to follow the recommendation of associate editor Greg Hancock, and approve publication of your manuscript in ESurf pending technical corrections to grammar and spelling. I ask that you give this issue your careful attention before submitting your finalized materials. The copy editors of Copernicus can assist with this task, but I trust that have the means to address most if not all niggles.

The manuscript will now be handled by the Copernicus publishers. Your timely and efficient response to their prompts will help to keep time to print minimal.

Thank you for submitting your excellent work to ESurf, and for working with our AE to further improve the manuscript. I look forward to seeing your work published in its final form and trust that it will receive good attention.

Niels Hovius

**Comments to the author:**

The Authors have submitted an excellent paper for review which is recognised by the Reviewers. The paper is ready for publication. However, please do a final check for English, grammar and spelling.

I look forward to seeing the paper in print
